Dear valued Avalanche Control associates

We must thank you for your continued support and promise to continue serving you to the very best of our ability.

In order to support the work that Dave Sly has been doing for CIL over the past years and render help to Dave as this market continues to grow, we have engaged Braden Schmidt, an experienced avalanche practitioner, to directly serve our client base in the USA.

Braden would be ready and able to hear from any of you and help in any way he can including recommendations and orders.

**Braden Schmidt**  
*Avalanche Control Consultant*
